

Company Profile

Anwar Muhammad Foundation

2025

Anwar Muhammad Foundation

AMF is a legal entity organization in the form of a foundation established in 2011.

AMF Group is a leading force in sustainable development, community empowerment, and ESG principles. We prioritize APIK values in projects, addressing social and environmental challenges while promoting inclusive economic growth.

AMF Group, founded in 2011, focuses on sustainable development and community empowerment. We use APIK values to create positive social change. We believe success comes from collaboration between government, private sector, and civil society, ensuring projects generate sustainable benefits.

VISION

The foundation aims to be a leading institution in sustainable development, stakeholder engagement, and global livelihood development, characterized by integrity, professionalism, and strong collaboration.

MISSION

Our goal is to provide innovative, high-quality solutions for sustainable development, collaborating with stakeholders, and combining expertise, technology, and APIK values to improve welfare, empower communities, and enhance environmental sustainability.

Our Values

AMANAH

We work with full responsibility, uphold the trust given to us, and complete every task with high integrity. Amanah is the foundation that keeps us committed to the success of every project we undertake.

PROFESSIONAL

We always prioritize quality, expertise, and ethics in every work we do. Through professionalism, we ensure that every solution we offer provides the best results that benefit the community and the environment.

INTEGRITY

We uphold honesty, transparency, and moral principles in every interaction and decision we make. Integrity is key in building trust with all stakeholders involved.

COLLABORATION

We believe that cross-sector collaboration is the best way to achieve maximum impact. By working together with various parties, we create synergies that allow us to achieve common goals with broader and more sustainable results.

Our Services

INTEGRATED SOCIAL SUSTAINABILITY SOLUTIONS

AMF Group offers strategic solutions specifically designed to meet the challenges of sustainable development. By combining expertise, technology and a deep understanding of community needs, we create solutions that have a direct impact on improving livelihoods and quality of life.

COMMUNITY-BASED MENTORING

Our mentoring approach focuses on empowering communities through sustainable programs. We work closely with local institutions and partners to ensure the success of long-term programs that deliver tangible positive impacts.

CO-CREATION AND COLLABORATION

We facilitate open collaboration with various stakeholders, from the public to the private sector. By working together, we create innovative solutions that combine the expertise and resources of different parties to create greater and more sustainable results.

ENVIRONMENTAL AND SOCIAL IMPACT ASSESSMENT

AMF are proud to have solid and extensive exposure to environmental and social impact assessment (ESIA). ESIA ensures responsible and sustainable development by identifying potential environmental and social risks associated with projects, allowing for informed decision-making and mitigating adverse effects.

2024, Social Mapping in Lahat Regency, Muara Enim Regency, and Pagar Alam City, South Sumatra, PT Supreme Energy Rantau Dedap
Client: PT Supreme Energy Rantau Dedap

2024, ESG Roadmap, IMPACTURA
Client: IMPACTURA

2024, ESG Annual Review DNSG, Ramboll Australia
Client: Ramboll Australia

2024, Environmental and Social Impact Assessment (ESIA) for Integrated Nickel Processing Facility, Step Temperature Acid Leach (STAL) Nickel Smelter Project, PT STAL Ecopark Pratama (SEP)
Client: PT STAL Ecopark Pratama (SEP)

2024, Social Mapping in Lahat Regency, Muara Enim Regency, and Pagar Alam City, South Sumatra, PT Supreme Energy Rantau Dedap
Client: PT Supreme Energy Rantau Dedap

2024, ESG Roadmap for PT Pelindo
Client: IMPACTURA

2024, ESG Annual Review DNSG, Ramboll Australia
Client: Ramboll Australia

2024, Environmental and Social Impact Assessment (ESIA) for Integrated Nickel Processing Facility, Step Temperature Acid Leach (STAL) Nickel Smelter Project, PT STAL Ecopark Pratama (SEP)
Client: PT STAL Ecopark Pratama (SEP)

2023, Addendum of Environmental Impact Assessment (ANDAL) and Environmental Management Plan – Environmental Monitoring Plan (RKL–RPL) Type A, Coal Mining Project PT Manambang Muara Enim
Client: PT Mitra Reka Utama (MRU) Engineering

2023, Environmental and Social Impact Assessment (ESIA), Integrated Nickel Class 1 Processing Facility PT STAL Ecopark Pratama, complied to World Bank Environmental and Social Framework 2018
Client: PT STAL One Ecopark Pratama

2022, Environmental and Social Impact Assessment (ESIA), Sonic Bay, complied to IFC Performance Standard, Equator Principle, and ICMM (International Council for Mining and Metal)
Client: PT Eramet Indonesia Mining

2022, Environmental and Social Impact Assessment (ESIA) dan Land Acquisition and Resettlement Action Plan (LARAP) Study, Tol Gilimanuk – Mengwi, complied to World Bank ESF 2018
Client: PT Tol Jagat Kerthi Bali (TJKB)

ENVIRONMENTAL AND SOCIAL IMPACT ASSESSMENT

Client: Indo Wind Power Holding PTE

DEVELOPING NATURE-BASED SOLUTIONS FOR DECARBONIZATION

AMF boast extensive expertise in conducting forestry studies, supported by a dedicated team of forestry engineers and carbon specialists. We have been collaborating **with the School of Life Science and Technology Bandung Institute of Technology (SITH ITB)** since 2022 through **Quintuple Helix Co-Laboratory in Ecosystem Services Management to Build Resilience Capacity** to develop a forest restoration and sustainable community development program in Special Purpose Forest Areas Gunung Geulis. Beyond, we work jointly with the SITH ITB experts in performing forestry works, including carbon offset projects in forestry.

AMF work with the **Indonesia Coral Reefs Foundation (TERANGI)** in **blue carbon initiatives** by unlocking blue carbon value with solid governance and capacity sharing. This creates sustainable financing due to social economic diversification for the management of marine protected areas.

ECOLOGICAL RESTORATION AND BIODIVERSITY CONSERVATION

With rich expertise and experience, AMF are seasoned leaders in ecological restoration and biodiversity conservation. Leveraging our extensive experience, we have successfully undertaken projects that restore ecosystems and contribute significantly to biodiversity conservation.

2025, Integrated East Java Biodiversity Management: Profile, Master Plan, Monitoring, Knowledge Products, and Priority Action

Client: GIZ Indonesia

2025, Development of Bankable Waste Masterplan in Tangerang

Client: Waste4Change

2024, Value Chain Development Potential and Market Access and Competitiveness for Three (3) Agroforestry Commodities, Sustainable Use of Peatland and Haze Mitigation in ASEAN (ASEAN-REPEAT-SUPA) Project, GIZ Indonesia

Client: GIZ Indonesia

2024, Biodiversity Action Plan for Exploration Well Development in Tabalong, East Kalimantan, Pertamina Hulu Indonesia

Client: Pertamina Hulu Indonesia

2024, Biodiversity Advisory for Graho Nyabu Geothermal Project

Client: EDC Indonesia

2023, Biodiversity Action Plan (BAP) Graho Nyabu Geothermal Project, complied to IFC Performance Standard

Client: PT Energy Development Corporation Indonesia (EDCI)

2022, Regulatory Reviews about Cartagena Protocol for Bio-Safety Legal Compliance Assessment

Client: PT JGC Singapore

OUR STRATEGIC COLLABORATION

Our contributions extend to a broader, macroscopic level, where AMF collaborate with like-minded partners to foster sustainability and innovation in developing nations.

In 2021, AMF were the initiators of **Koalisi Generasi Hijau (Koalisi Gerakan Ekonomi Hijau Masyarakat Indonesia)**, an association of parties working in the field of the green economy in Indonesia, consisting of institutions like the National Secretary of the Indonesian Forum for Budget Transparency (SEKNAS FITRA), Indonesia Center of Renewable Energy Studies (ICRES), Waste4Change, and Indonesia Research Institute for Decarbonization (IRID).

In 2022, AMF, in partnership with **UNDP Indonesia and Innovative Financing Lab**, committed to mainstreaming climate finance and the circular economy within the parliamentary sphere. We developed the Climate Finance Handbook and Circular Economy Module, complied to Sustainable Development Goals, strengthening parliament's roles in implementing climate finance and circular economy in Indonesia.

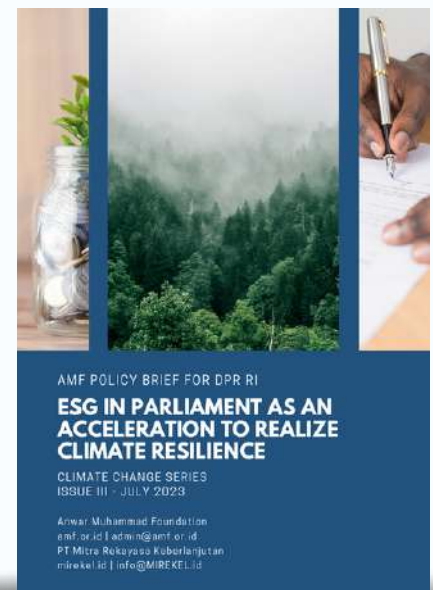

With Deutsche **Gesellschaft für Internationale Zusammenarbeit GmbH (GIZ) Indonesia**, AMF collaborates on the development of Strategic Initiatives for Communication and Engagement to Support Advocacy for Green Recovery in 2021, complied to Sustainable Development Goals, and Islamic Blended Finance Model Development Guidelines in 2022.

POLICY BRIEFS AND RESEARCH

AMF develop a comprehensive policy brief aimed at advancing sustainability and ESG practices. Through meticulous research and a commitment to driving positive change, our companies strive to create impactful policies that contribute to a more sustainable and responsible business landscape.

AMF developed policy briefs for the **Indonesian Parliamentary**. We keep in touch with the **Inter-Parliamentary Cooperation Agency (BKSAP)** and Green Economy Caucus to oversee parliament's roles in addressing climate issues. In 2024, we developed the **Policy Brief on Nature-Based Solutions** and the **Dynamic Materiality Study for Indonesia**.

AMF demonstrate unwavering commitment to sustainability and ESG by actively supporting cutting-edge **research initiatives**. Our companies contribute to the development of innovative solutions and evidence-based insights.

Our International Exposure

AMF take pride in our extensive engagement with international stakeholders, solidifying our position as a trusted global participant. Our extensive international exposure is a testament to our commitment to making a positive global impact.

AMF are affiliated with the **International Association for Public Participation (IAP2) Indonesia**, working on mainstreaming public participation in Indonesia to ensure participative sustainable development.

AMF's active involvement in the **International Association for Impact Assessment (IAIA)** underscores our dedication to international best practices in environmental and social impact assessments.

International Clients and Partners

AMF's project portfolio for esteemed international clients, including prominent organizations such as **RINA, Ramboll, and KfW Bank**, attests to the quality and excellence of our solutions, with many of these clients repeatedly choosing us for their projects.

Collaborating with prestigious international entities like the **United Nations Development Programme (UNDP)** further enhances our global reach and impact.

Our interactions with international financial institutions and development banks, such as **KfW, the Melloy Fund, and the Asian Development Bank (ADB)**, demonstrate our ability to deliver effective solutions aligned with international standards and sustainability goals.

Let's Connect, Cooperate, and Collaborate!
